**From:** Springboard Consulting, LLC

**Subject:** 2020 Disability Matters N.A. Award Applications Changes

## Exciting Changes to the Disability Matters Awards Selection Process!

### NEW Process Effective Immediately:

- The Disability Matters Awards Committee receives corporate and individual nominations from a variety of sources including self-nominations.
- The Disability Matters Awards Committee launches a comprehensive process and due diligence to determine, if the company or individual is worthy of Award. Although not required, if completed, the NOD Tracker will be taken into consideration. **Applications are no longer required!**
- If selected for an award, Springboard notifies company or individual of being selected, providing logistics for the Awards Presentation at the Disability Matters Awards Gala.
- At least one person must be present throughout the entire conference to be able to share successes and learnings, and be present at the awards gala to accept award.
- Honorees will have the ability to become a sponsor and receive a 10% discount from the current sponsor-level rates. (This is optional.)

**We're still serious about honoring your success but simplified the process.**
